<https://github.com/zurisha7> | Portfolio: <https://zurisha7.github.io/awestportfolio/>

A detail oriented and recent graduate of University of Texas at Austin's Full Stack Coding Bootcamp. Seeking a position in Full Stack Web Development. Current stay at home mother enthusiastic about creating and enhancing in the tech field.

Technical Skills

Frontend: *HTML5, CSS, JQuery, Javascript, Bootstrap*

Backend: *MySQL, MongoDB, Express, ReactJS, Node, Handlebars, Webpack*

Projects

Musitory | Repo: <https://github.com/macpat83/Musitory.git> | Deployed: <https://macpat83.github.io/Musitory/>

Role in Project: Front End

- *An app to search musical artists through names, albums, and songs.*
- *This app retrieves information about the searched subject. It will supply a list of songs and videos related to the artist. I worked with CSS and Bulma to give the app a fun look.*
- *Tools/Languages: HTML, CSS, Bulma, JavaScript*

Meet Friends | Repo: <https://github.com/SD-github21/meet-friends.git> | Deployed: <https://meet-friends-bootcamp.herokuapp.com/>

Role in Project: Front End

- *An app to make friends and meet up.*
- *The dating app for platonic friendships to meet and hang out. This gives them the opportunity to find similar interests and meet to enjoy activities together. My responsibilities were front end to connect the front end to the back end and design the app with a well organized and easy to use look and functionality.*
- *Tools/Languages: HTML, CSS, Bcrypt, Bootstrap, Dotenv, express.js, Handlebars, Multer, MySQL, Node.js, Sequelize*

EatSleepWorkoutRepeat | Repo: <https://github.com/zurisha7/EatSleepWorkoutRepeat.git> | Deployed: <https://lit-plains-044922.herokuapp.com/login>

Role in Project: Front and Back end

- *A workout app that allows the user to log meals, workouts, and hours slept.*
- *This app brings all health trackers together into one place. My responsibilities on this project included setting up the functionality between the front and back end and creating a simple and clean look.*
- *Tools/Languages: React, Bootstrap, MongoDB, NodeJS, ExpressJS, GraphQL*
